

Material change for
a better environment

Construction Waste – the road to zero?

Save money through compliance, resource efficiency, technology and innovation.

9.30am - 4.30pm, Thursday 29 October 2009

[AirSpace Conference Centre](#)

Imperial War Museum, Duxford, Cambridge CB22 4QR

Keynote:

Martin Fodor, Policy Advisor Construction Sector, Environment Agency

Conference Chairmen

Geoff French, Group Chairman of Scott Wilson plc

Michael Reid, Technical Director, Centre for Sustainable Engineering

- Site Waste Management Plans 18 months on - teeth biting or business as usual?
- Practical Tools to Improve Resource Efficiency in Construction
- Infrastructure for minimising waste
- Innovation?
- Underpinning Construction Resource Efficiency – Barriers and Solutions

Speakers include:

Andrew Gregory, Head of Construction Waste, DEFRA

Heidi Shaw, Vice Chair ICE Waste Management Board

Jim Wiltshire, WRAP

Brian Menzies, Enscape Consulting

Chindarat Taylor, Pathway to Zero Waste

Derek Ross, BAM Nuttall

Chris Williams, Peterborough Renewable Energy Ltd

Caroline Oldroyd, Osborne Construction

Nick Balmer, Bovis Lend Lease

Plus many more with a choice of twin sessions in the afternoon

Full day delegate fee: £95 + vat

Concessionary full day (graduate/students, unwaged, retired): £65 + vat

Half day (afternoon only incl lunch) £65 + vat

09.30 - 10.00	Registration and Coffee welcome	
Session/Time	Subject	Speaker
Session 1: Introduction		
10.00 - 10.05	Welcome and introduction by the conference Chairmen.	Conference Chairman: Geoff French , Chairman, Scott Wilson and Vice President, Institution of Civil Engineers Conference Vice-Chairman: Alison Cooke , Alison Cooke Associates
10.05 - 10.20	Introduction	Looking at the wider Resource Agenda – getting commercial and industrial material, particularly Construction waste back into the supply chain. Chindarat Taylor , Director, Pathway to Zero Waste
10.20 - 10.35	Keynote: Construction waste management in its wider context – trying to improve both Duty of Care and environmental performance of construction sector.	Martin Fodor , Policy Advisor for Construction, Environment Agency
10.35 - 10.55	Information on the supply chain approach to minimising waste	Jim Wiltshire , Programme Manager for Designers & Contractors, WRAP
10.55 - 11.15	National Industrial Symbiosis Programme (NISP) – what it is and how it works.	Dave Berrill , Performance Director, NISP
11.15 - 11.25	Comfort Break Only	
Session 2: SWMPs 18 months on - Are the teeth biting or is it business as usual?		
11.25 - 11.40	Section on Legislation Overview of the SWMP regulations and progress to date. Nuts and bolts to make sure the audience are up to speed on regulatory requirements and where we are heading with SWMPs	Andrew Gregory , Head of Construction Waste, DEFRA
11.40 - 12.00	Site Waste Management Plans 18 months on: Are the teeth biting or is it business as usual?	Heidi Shaw , Vice Chair ICE Waste Management Board
12.00 - 12.20	Implementing SWMPs: Contractor's perspective	Caroline Oldroyd , Osborne Construction.
12.20 - 12.40	Implementing SWMPs: Waste Management Industry Perspective: Helping Win the War on Construction Waste	Paul Morgan or Sue Smith , Pearsons (Thetford) Ltd.
Lunch 12.40 - 13.20	NISP sponsored showcase exhibition of micro-enterprises	

Material change for a better environment

Session 3 Practical Tools to Improve Resource Efficiency in Construction

13.20 -13.25	Introduction from Rob Bresler of NISP to Construction, Utilities and Aggregates Working Group (CUAWG) for which delegates can still feedback at pm tea break.
13:25 - 13:30	Introduction to parallel sessions Geoff French and Michael Reid FIMechE , Technical Director, Centre for Sustainable Engineering, Vice Chair IMechE Energy, Environment, Sustainability Group

Parallel Sessions to run during afternoon programme (5 minutes between each session)

Infrastructure for minimising waste – Main Auditorium			Innovation - Airside Suite	
13:35 -13.55	Zero to Landfill - one container, one recycling solution	Peter Kisgeretz Sales Director www.mickgeorge.co.uk	Peterborough energy and recovery plant	Chris Williams Managing Director Peterborough Renewable Energy Ltd
14:00 - 14.20	BRE: Tools to help you make the right decisions for waste	Katherine Adams , Principal Consultant, BRE	Engineering out waste on large civil engineering/ construction works.	Derek Ross , BAM Nuttall
14:25 - 14.45	Construction & demolition waste separation technologies – findings from a recent WRAP project investigating best practice in Europe	Brian Menzies , Director, Enscape Consulting	Total Integrated Earthworks Solutions (TIES) – the most sustainable method of earthworking available today.	Simon Rafferty , Scott Wilson
14:50 - 15:10	Is recycling infrastructure a critical factor in unlocking the recycling potential of our construction waste?	Nigel Mattravers Resource/ carbon considerations, transport factors, fossil fuels, efficiency of recycling processes, need for coordinated facilities for handling, storage, treatment and bulking of construction wastes.	Micro Enterprises	Iain Sansome Business Development Manager Sustainable Drainage Systems Ltd

Parallel sessions end – delegates reconvene in main auditorium.

15:15 -15.35	Waste technologies	Nick Balmer , Bovis Lend Lease
15.35 - 16:00	Coffee / tea break- final opportunity for submissions to CUAWG	

Session 4: Underpinning the Construction Resource Efficiency – Barriers and Solutions

16:00 - 16:10	NISP synergy session feedback and resources swap	Rob Bresler , Senior Practitioner, NISP
16:10 - 16:20	Waste recycling – winning business enterprise.	Paul Tinton , www.prowaste.co.uk a successful candidate in BBC TV's Dragon's Den.
16.20 -16.30	Feedback session on lunchtime 'table talkers' discussion. Round up & closing comments from the Chair.	Recap questions and open floor for comments. Chairmen to introduce expert panel to field questions and comments.
